What do animal agriculture and sustainability mean to you? Enter this video contest to win money towards events or items for your FFA chapter.

Categories include:

Animal ag

Animal agriculture is the number one customer for Nebraska soybean meal. A successful livestock industry is vital to the strength of the NE economy both now and in the future. As a young agricultural advocate,

- What are you doing to promote good animal husbandry?
- What does sustainable livestock and poultry production mean to you?

Sustainability

As the global population increases, ag and livestock producers are tasked with producing more with fewer resources.

- What does sustainable soybean production look like?
- What other measures are you taking to promote sustainable agriculture in your community?
- Why is sustainability important?

BE UNIQUE, BE CREATIVE AND GOOD LUCK!
